**Medical Record eXchange – the new, secure, online method of eXchanging medical information between GPs, specialists and insurance companies.**

Introduced by Zedmed, this simple, user-friendly system saves GPs and specialists precious time and resources.

- + 3 easy steps to send patients' medical information
- + Integrates with major medical software packages
- + Developed to NEHTA and Standards Australia eHealth Guidelines
- + Secure, Encrypted And Privacy Compliant

*Insurance requests are just more paper work that needs to be done, usually outside of consulting time or even from home at night. Medical Record eXchange will free up my time to spend with my family.'*

DR Andrew Pascoe,  
Executive Director, Medical One
