

Integration Partners

Medical Record eXchange fully integrates with *Zedmed Clinical, Medical Director 2, Medical Director 3 and Best Practice.*

The service is simple and intuitive requiring little to no adoption time and with minimal disruption.

Our service delivers savings on improved medical practice efficiencies through full integration with your clinical software and reduced interruptions at the front desk.

If you are not running one of these software packages, requests can be fulfilled in the traditional way of completing paper work and faxing to Zedmed.

Insurance Partners

*Zedmed Pty Ltd manages insurance medical information requests for some of Australia's leading insurance groups through **Medical Record eXchange.***

Medical Record eXchange delivers highly secure medical information from the health provider to the insurer – quickly and simply.

This comprehensive patient information is then available for the insurance company to review and process underwriting and claim applications

- + Assists in prompt approvals
- + Accurate premium assessment
- + Retention of members
- + No Doctor's writing to decipher

The Medical Record eXchange Portal provides up to date information on the requests' progress and is available to Insurance Companies and their Advisors

Our close partnership with leading insurance groups such as MLC and MetLife demonstrates our leadership in the market and ensures service quality.
